Elizabeth and Jason Matthews

The Mammoth Road Neighborhood  
Alliance

NH DEPT. OF  
ENVIRONMENTAL SERVICES

JUL 15 2008

**RECEIVED**

Thomas S. Burack, Chairman  
New Hampshire Site Evaluation Committee  
c/o New Hampshire Department of Environmental Services  
29 Hazen Drive  
PO Box 95  
Concord, NH 03303-0095

Mr Burack,

This letter is a formal request to intervene and to speak at all public hearings on behalf of the Mammoth Road Neighborhood Alliance, Betsy Matthews, and Jason Matthews. The three aforementioned parties (the Alliance made up of all members of abutters who wanted to join and speak separately on their own behalf) would like full reign to speak and represent their concerns, as well as be notified properly and with prior notice such as 60 days or more of any upcoming public hearings or private hearing that abutters can attend. The concerns exist of the following:

- 1) Bait and switch tactics whereas Tennessee Gas has previously given little to no notice to abutters to attend their noted public forums.
- 2) Tennessee Gas's letter delivered by Fed EX where they "inadvertently" forgot to notify some of the abutters. These abutters were not given proper notification nor a reasonable time line to research information, raise concerns, and address them based on the guidelines laid out by Tennessee Gas.
- 3) Public safety in the area of Mammoth Rd and an efficient evacuation plan should an emergency occur
- 4) Ground contamination due to rusting or corroding pipes and interruption of air and ground quality during the construction phase and beyond.
- 5) Noise pollution.
- 6) Effects on property value
- 7) Beaver Brook Conservation
- 8) Pelham town bylaws for the Industrial Park area
